**Don't You Forget About Me**  
*By Simple Minds*

Won't you come to see about me  
I'll be all alone, dancing - you know it, baby  
Tell me your troubles and doubts  
Giving me everything inside and out  
Love's strange - so real in the dark  
Think of the tender things  
That we were working on  
Slow change may pull us apart  
When the light gets into our hearts, baby

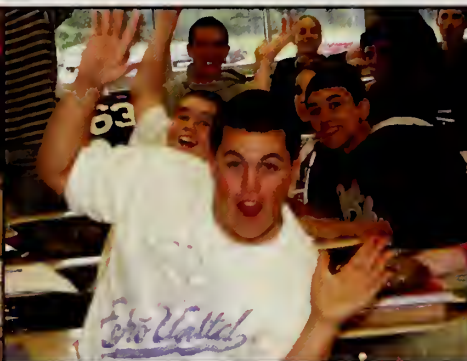

Don't you forget about me  
Don't, don't, don't, don't  
Don't you forget about me  
Will you stand above me  
Look my way, never love me  
Rain keeps falling  
Rain keeps falling  
Down, down, down  
Will you recognize me  
Call my name  
Or walk on by  
Rain keeps falling  
Rain keeps falling  
Down, down, down

Don't you try and pretend  
It's me beginning  
We'll win in the end  
I won't harm you  
Or touch your defenses

Vanity, insecurity  
Don't you forget about me  
I'll be alone, dancing - you know it, baby  
Going to take you apart  
I'll build us back together a heart, baby  
Don't you forget about me  
Don't, don't, don't, don't  
Don't you forget about me

**Dreams come true. Without that possibility,  
nature would not incite us to have them.**

We all have big changes in our lives  
that are more or less a second chance.

*Some memories are realities and are better than  
anything that will ever happen to you again.*

Change your thoughts and you  
change your world.

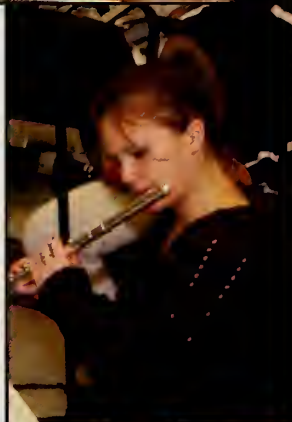

They may forget what you said, but they  
will never forget how you made them feel.

The best things in life aren't  
things - they're friends.

*A good friend is hard to  
find, hard to lose,  
and impossible to forget.*

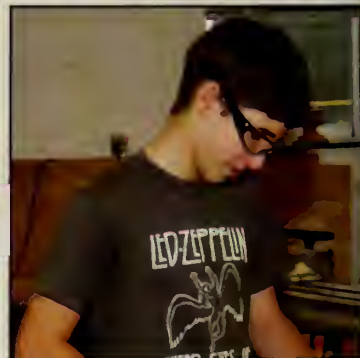

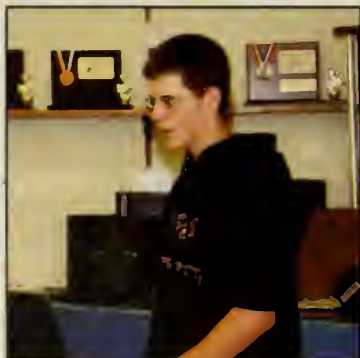

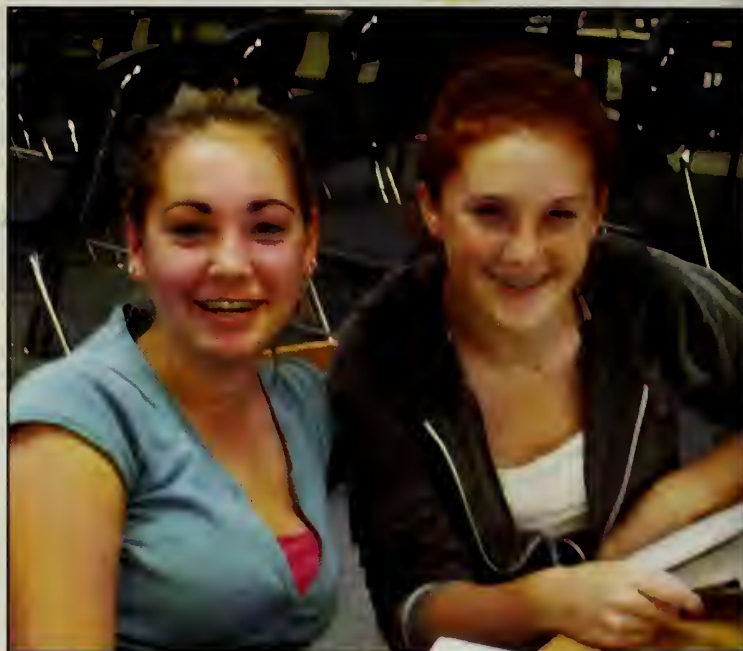

A real friend is one who walks in  
when the rest of the world walks  
out.

There are no strangers,  
only friends you haven't met yet.

of the 'Ball.

Time for a close-up!

#### he said

The music was better than at other dances; there wasn't as much rap. Dressing up didn't really matter to me. There were a lot of people there so it was easy to have a good time. Overall, Snowball was fun, but the rubber flooring made me fall!

#### she said

Snowball was very fun, but I think it lacked what Homecoming had. Not as many people went to Snowball, but it was another great time to dance with your friends. It was a great way to dress up, look great, and dance along to whatever the DJ played.

Darling debutantes, Nadya and Casey, beam brightly.

NHS's cool tie guy.

## Dance Dance

Let's do the hustle!!!

"The weather outside is frightful, but the Snowball is so delightful!!!"

Derek and Livy can't take their eyes off each other.

Laura, Colleen, Karyssa, and Jill patiently await the fabulous meal.

Dana busts a move.

Nick, Matt, and Joe show off for the ladies!

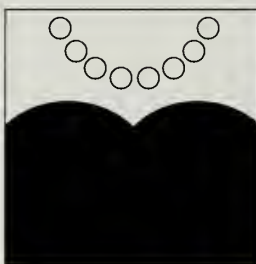

Brittany and Jeff, "at the high school dance where you can find romance".

Ryan and Merry know how to have a great time.

Jess and Dan savor the last dance.

We go together like rama-lama what?!

Kylee, Allison, and Debbie wanna have fun!

Rachael, Diana, and Meaghan flash those pearly whites.

Taylor and Brendan groove to the electric slide.

Cassie and Nick have been practicing this move for a long time.

Meg's smile lights up the dance floor.

Everybody dance now!

Merri and Danielle smile in anticipation of a great night!

Meg has the time of her life singing along with the music.

Kevin, Mel, and Matt break for a photo op.

Hail, Hail, the gang's all here.

Jenny and Amy are for each other like a-wop-boma-loo-mop...

Everyone follows DJ sammy's command... "to the left!"

Where did you come from Cotton-Eyed Joe?

Adam, Jen, Alexa, and Ryan strike a pose.

## Looking to the Stars...

# *Leaving the Lancers...*

After years of shaping our futures, three favorite NHS teachers embark on their own.

**Mrs. Mackinder**

**M**rs. Mackinder's long career has brought her great satisfaction and many enduring friendships. As she faced each new class, Mrs. Mackinder was aware that the history students before her were future professionals, artists, scholars and tradesmen, on their way to becoming accomplished individuals and contributors to our society. As Mrs. Mackinder leaves the profession, she is concerned with government's increasing mandates in education. Respect for public education, which in the past was the leveler of the playing field in America, is dwindling. She believes that much of education's effectiveness is grounded in good parenting and leaves her students with the charge that even more than academic and economic success, that excellent parenting be their greatest glory, for those that choose it. Mrs. Mackinder's twin grandsons will continue to enrich her life.

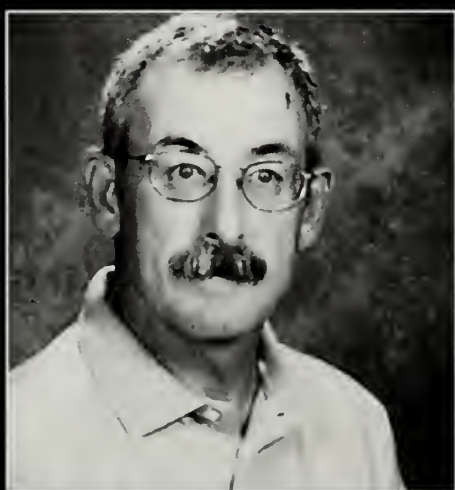

*"Teaching, truly, has been a labor of love for me."*

**Mrs. Martin**

**M**rs. Martin has fulfilled her girlhood dream of becoming a teacher with a career that spanned thirty-five years. Her style of teaching was not that of endless lecturing, but planting the seed of curiosity and encouraging students to find the answers. A few of the important things that Mrs. Martin learned in the classroom include patience, forgiveness and the willingness to grant second chances. Some of her proudest moments came from the success of her students in the field of biology, especially those that failed the first time and turned it around to become successful. Mrs. Martin plans to travel and enjoy her grandchildren.

*"I wanted to help my students find their strengths, use their own talents, and realize that everyone can be successful - you have to live your own dream."*

**Mr. Larocque**

**M**r. Larocque, voted this year's Coach of the Year by the Nobscott Valley Football Officials Commission, has been a prominent figure at Norton High School for thirty-eight years. He chose a career in physical education because he loved working with kids and enjoyed baseball, football and track as a student himself. He played football in high school and college. One of the greatest events of his coaching career came in his team's win over Attleboro, which crowned them the Super Bowl champs. Mr. Larocque will include football, fishing and woodworking in his secret plans for the future.

*"I will miss the camaraderie with the kids the most... every day has been fun."*

Dear Members of the Class of 2006:

Congratulations! You've successfully completed your high school studies! Now what are you going to do?

Undoubtedly, you've given a lot of thought to that question as you look toward the bend in the road you are about to travel. You've weighed carefully the advice of your family and friends on the best way to take advantage of the quality education you received in our schools. You've spent quiet moments, by yourself, dreaming about the plans you've made. Whatever path you take, whether to pursue higher education or to enter the workforce, I hope you will look back fondly on your schooldays in Norton as a time when you were given every opportunity for academic excellence and personal growth, and remember the people who helped you in some way.

As the first graduating class in my tenure as superintendent, please be assured that you will always occupy a special place in my heart. I will welcome the news of your achievements and look forward to your return visits. My wish for each of you is that you use your many talents to build a happy and productive life for yourself and those around you. And that you make learning a lifelong experience.

About that question I posed at the top. I feel confident that you are going to do just fine.

Best Wishes,

Patricia Ansay, Ed. D.  
Superintendent of Schools

*The End.*

Waking us up at the crack of dawn,  
School has been an enriching experience that we've undergone.  
All of the great memories that have been made,  
Starting from kindergarten all the way to twelfth grade.  
We met people we would sit next to for years,  
Now having to leave them will bring me to tears.

Helping one another with the drop of a dime,  
We dreamed of friendships that would last a lifetime.  
Forming cliques and enhancing our friend-making results,  
Through the years we have grown from children to adults.  
Making one another laugh and cry,  
Today we will now say goodbye.

Goodbye to our teachers, our friends, and our simple lives,  
'Cause what comes next will only help us survive.  
An eventful evaluation for the pursuit of college,  
Graduation is the commencement of our knowledge.

With one common goal in hand,  
We will now take the walk that will leave thoughts of the future unplanned.

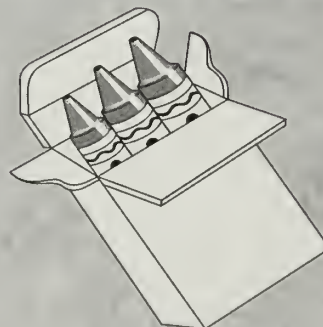

Excitement and eventful experiences we shall never lose,  
Between the senior class cruise and paying those taxing dues.  
Thrilling memories that have been immersed in our minds,  
Everyone has somehow been influenced by their finds.

Uniting our passions for one common goal,  
Our teachers, our family, our friends gather in our extol.

What an untimely end to pretend,  
That many of us hoped we could extend.  
Look to your left, and then to your right,  
All of our dreams are about to take flight.  
Our time has come, the time is now,  
In disbelief, I can only ask "How?"

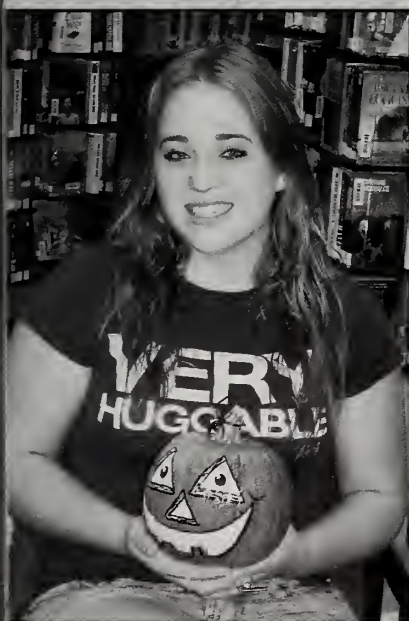

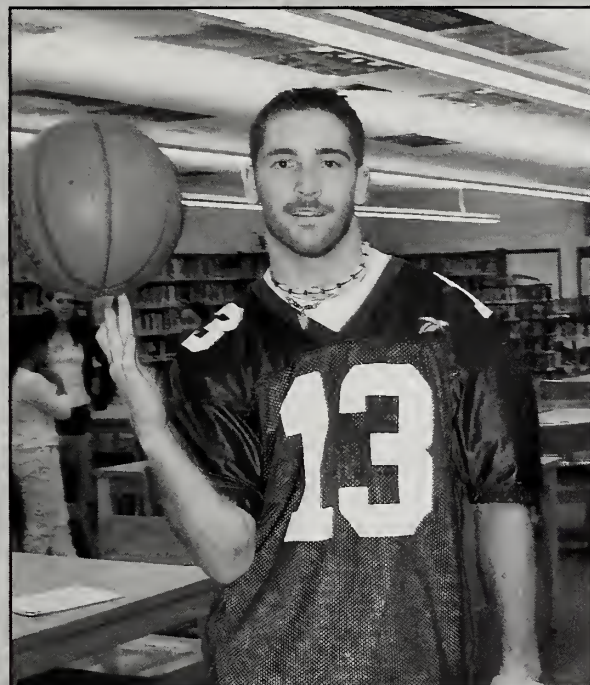

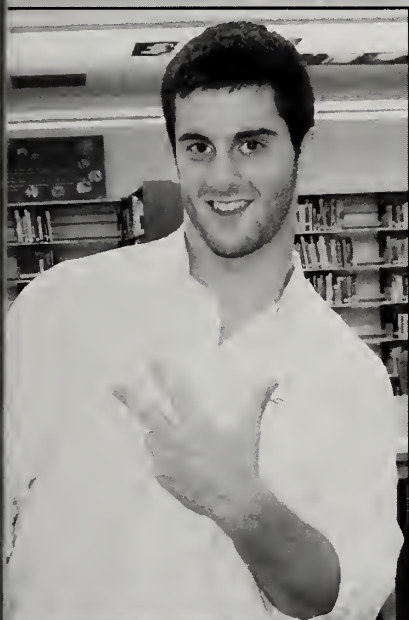

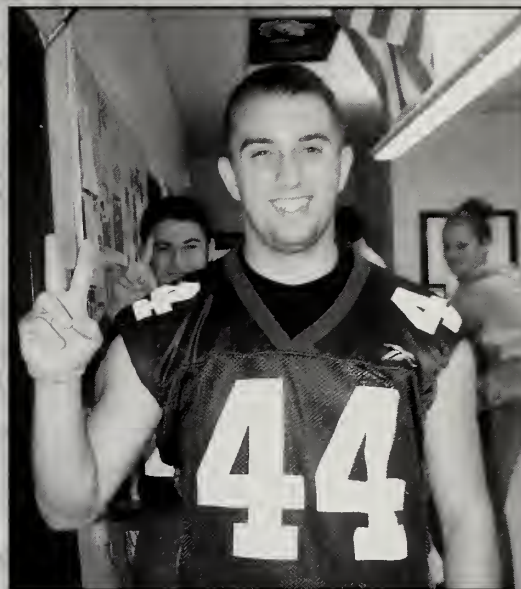

Here we are, an awe-inspiring mix,  
We are the class of 2006.

BASEBALL

This year's Norton Lancer Baseball Team went an uncharacteristic 5-15. This year was a rebuilding year for the Lancers, who are a potential powerhouse on the diamond since Coach Dave Mollica took over the team in the late 70's. The Lancers graduated two seniors, Aaron Kenter-Potty and Steve Poirier. These two made great contributions not only on the field, but also off of it as well. They both helped bring up young players on the team in hopes of returning the Lancers to their glory of past years. The learning year will be invaluable for the team as they move in the direction in becoming contenders.

By the end of the season, the Lancers had improved not only in record, but also as a team. The team voted senior defender Derek Woodworth unsung hero. ## FOOTBALL

This year the Norton Football Team greatly uplifted the school's spirit. Unfortunately, they will be losing many influential seniors who made the team more united than ever before. Their drive and devotion to the game was evident on and off the field. The players pushed themselves this year and they became a very good team to watch. The team's steady improvement is a tribute to Coach Larocque's leadership.

Golf

This season, the Norton Lancer Golf Team struggled through another tough year. With only a small number of victories this season, it just was not enough for the Lancers to come out on top in the Tri-Valley League. The number one golfer, Tim Murphy had an outstanding season as his last year as a Lancer came to a close.

The majority of the team's wins were gained by juniors Adam Fisher, Joe O'Connell, Lars Tenglin, and Ryan Butler, predicting a prominent future for Lancer Golf.

Finishing out a few games shy of the tournament, this year proved to be a vast improvement over the last. Four of this team's members were recognized this year as Taunton Gazette All-Scholastic All-Stars: Melanie Orphanos, the JFK, Kaylyn Gooley, the MVP, Brittany Walsh and Katie Burke.

## CROSS COUNTRY

In the sport of Cross Country, only five runners are technically needed to have a team, but to be competitive, a team wants more than five. This is the case for the Lancers. The team has just above the minimum to compete as a team, and hopes for more bodies. Despite this, the girls managed to win their first meet in 10 years. Dan Champagne and Brianne Rafferty were the captains for this past season. Brianne and Josh Adler are the only two seniors graduating. Stacey Allen was voted Taunton Gazette first team all-star and Dan Champagne was named to the second team all-stars.

## **Wisdom**

**A**s defined in Webster's Dictionary, insightful understanding of what is true, right, or enduring. But it is much more; wisdom is earned by life's experiences good and bad, failures and successes, losses and gains.

It is not to be confused with intelligence, the capacity to learn and solve problems. There is a good chance that you are or will be smarter than your parents. Time will tell. Think of having to climb a tower with 300 steps, but at the 250th step, someone shows you the elevator. What a relief, you save 50 steps, what an advantage. So if someone you trust, love, or respect shares some wisdom with you, take from it what you will. They are just trying to save you some steps in life. Listen, think, and then decide. Remember. all decisions are ultimately your own.

## Congratulations Sarah

The future is yours. We can't wait to see what you can do with it.

## Meredith Rodman

It seems like only yesterday we were watching you walk  
through the door of Miss Kline's kindergarden class.  
Your eyes were opened wide and your heart filled with  
excitement for all the challenges ahead.

You've kept walking, never looking back, still greeting all  
those challenges, (although a little bigger now) with the  
same excitement and zest you had on the first day. It has  
been such a pleasure watching you grow from that little  
girl in Miss Kline's class to the fine young woman you are  
today.

You bring so much joy into our lives. We are so proud of  
you, your accomplishments and the hard work you have  
continued to strive for over the years.

Keep walking, don't run, and be sure to enjoy the journey  
along the way. The best is yet to come. Congratulations,  
Meredith!

## ~ Families ~

The family. We were a strange little band of characters trudging through life sharing diseases and toothpaste, coveting one another's desserts, hiding shampoo, borrowing money, locking each other out of our rooms, inflicting pain and kissing to heal it in the same instant, loving, laughing, defending, and trying to figure out the common thread that bound us all together.

~Erma Bombeck

The informality of family life is a blessed condition that allows us to become our best while looking our worst.

~Marge Kennedy

To put the world right in order, we must first put the nation in order; to put the nation in order, we must first put the family in order; to put the family in order, we must first cultivate our personal life; we must first set our hearts right.

Confucius

Families are like fudge... mostly sweet with a few nuts.

~Author Unknown

American families have always shown remarkable resiliency, or flexible adjustment to natural, economic, and social challenges. Their strengths resemble the elasticity of a spider web, a gull's

skillful flow with the wind, the regenerating power of perennial grasses, the cooperation of an ant colony, and the persistence of a stream carving canyon rocks. These are not the strengths of fixed monuments but living organisms. This

resilience is not measured by wealth, muscle or efficiency but by creativity, unity, and hope. Cultivating these family strengths is critical to a thriving human community.

Ben Silliman  
Family faces are magic mirrors. Looking at people who belong to us, we see the past, present, and future.

~Gail Lumet Buckley

Emily, Rosemary, and Michelle diligently prepare a posterboard to entice incoming freshman class to joining the yearbook staff.

Alicia intently works on the ad section, hoping that this will be the best yearbook Norton High has ever seen!

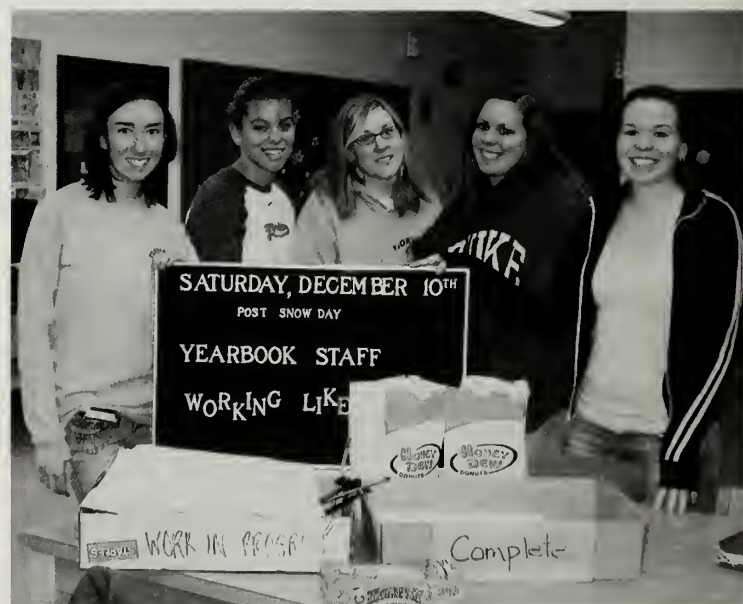

**Adviser  
Mrs. Ardagna**  
"Jess Meier and the select group of students who worked tirelessly on this yearbook deserve much more than a big round of applause. Producing it was truly a labor of love."

**Adviser  
Mrs. Oddi-Morrison**  
"The yearbook requires many hands and lots of creativity. The students working on the yearbook spent countless hours and weekends tapping into their imaginations to create this yearbook."

**Editor-In-Chief  
Jessica Meier**  
"Being yearbook editor has taken up a lot of my time and energy, but seeing how our hard work has paid off is very rewarding. We can't thank all the faculty, staff, students, and sponsors enough for all their help!"

Jess, Mel, Rachael, Alicia, and Laura pose while "Working like dogs" at one of many Saturday meetings to complete a deadline on time.

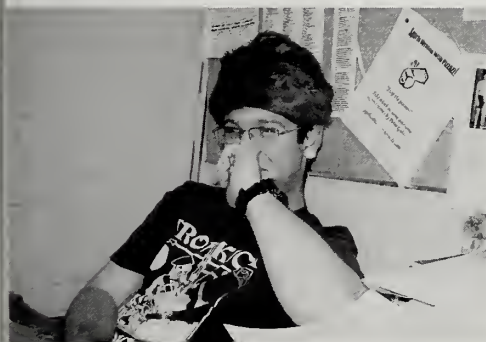

**THE** 2006 Sojourn, volume 51 of the Norton High yearbook was printed by Herff Jones Printing and Publishing Company in Gettysburg, PA. The account was serviced by Marjorie Hewitt and customer service advisor, Lisa Kilck. The cover was a school-designed silkscreen using Vibra Tex Royal Purple for the base materials and white, black, and silver foil as the applied colors. Fonts used in the book include Deanna Script, AHJ Palladio Regular, and AHJ Batavia Regular. The book's 184 pages were printed with a Pentax Optio S40 camera. The book was produced using Adobe InDesign CS2. The

school-designed end sheets were printed on natural paper stock using black and purple inks. Digital photographs were taken by student photographers with a Pentax Optio S40 camera. Professional portraits and team sport photos were taken by Maré Studios. Three hundred copies of the book were sold at \$55 each. The staff sold advertising space, candy bars, and held raffles to supplement the cost of publication. The Editor-In-Chief was Jessica Meier. The Business Editor was Melissa Rose. Elaine Ardagna and Melissa Oddi-Morrison were the advisers. Staff members consumed 1800 pieces of licorice, 12 pizzas, and 6 dozen juice boxes. The hours of work were without number.

Chris Pinheiro will always remember Friday night games, partying with Mijoy, New Year's, San Diego, and all the fun times he had during the last four years.

The Norton Public School System does not discriminate on the basis of age, race, color, national origin, sex, disability, religion, or sexual orientation.

If graduation is an indicator of successfully completing one stage so as to qualify to begin another stage, then graduation is not simply about school or even today. Graduation can happen any day. As hopefully my speech has illustrated: The mistakes I made yesterday do not have to be repeated. We learn so we can move forward. Congratulations on graduating today and good luck with graduating tomorrow.

-Mr. Miller, from "Graduation Today", the 2006 Senior Class Play
